Summary

Aspiring Data Analyst with strong knowledge of Python, SQL, Excel, and Power BI. Skilled in data cleaning, analysis, visualization, and building interactive dashboards that turn raw data into meaningful insights. Seeking an opportunity to begin my career as a Data Analyst and contribute to data-driven decision-making.

Education

Institute of Industrial and Computer Management and Research (IICMR), Nigdi, Pune – SPPU University

2027

Master of Computer Applications (MCA)

Yashwantrao Chavan Institute of Science (YCIS), KBP University, Satara

2025

B.Voc in Software Development

CGPA: 9.41

Technical Skills

- **Programming Languages:** Python, SQL, Java
- **Machine Learning & Data Analysis:** Data Cleaning, Data Analysis, Predictive Modeling, Regression, Classification
- **ML Libraries:** Pandas, NumPy, Scikit-learn, TensorFlow, Keras
- **Data Visualization:** Power BI, Tableau, Excel, Matplotlib
- **Databases:** MySQL
- **Tools & Platforms:** Jupyter Notebook, VS Code, GitHub, Flask

Projects

Stock Price Prediction

Python, Pandas, NumPy, Scikit-learn, TensorFlow/Keras, Matplotlib, yFinance

Built an LSTM-based deep learning model to analyze historical stock data and predict future stock prices; generated actual vs. predicted price charts to evaluate model performance.

Crop Yield Prediction System

Python, Pandas, Scikit-learn, Random Forest, Flask

Developed a Random Forest regression model to predict crop yield using agricultural and environmental data; deployed the model as a web application using Flask.

Plant Disease Detection System

Python, Machine Learning, Computer Vision

Built a computer vision-based classification model to detect plant diseases from leaf images, enabling automated early disease identification.

Sales Data Analysis Dashboard

SQL, Excel, Power BI

Analyzed sales trends and performance using SQL queries and Excel; designed an interactive Power BI dashboard to surface key sales insights.

HR Analytics Dashboard

Power BI, Excel, DAX, Power Query

Analyzed employee attrition, job satisfaction, salary patterns, and workforce demographics; built an interactive Power BI dashboard providing insights for HR decision-making and workforce management.

Experience

CodeAlpha

Aug 2026 – Sep 2026

Data Analytics Intern

- Performed data analysis and visualization tasks on real-world datasets using SQL, Excel, and Power BI.
- Contributed to practical analytics projects, translating raw data into actionable business insights.

CodSoft

Aug 2026 – Sep 2026

Data Analytics Intern

- Worked on data analysis tasks and dashboard creation using SQL, Excel, and Power BI.
- Applied data visualization techniques to support analytics-driven decision-making.

Certifications

- Data Analytics and Visualization – Accenture
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle
- Sarathi – Government Certificate in Mobile Application Development
- Diploma in Cloud Computing
- TCS iON Career Edge – Young Professional

Other Activities

- AI and Life & Employability Skills Program – Magic Bus India Foundation, supported by Infosys Foundation.
- Participated in a national-level workshop on Linux and Cloud Computing.
- Presented a seminar on Artificial Intelligence covering concepts, applications, and industry impact.
